

IT IS TO BE "short horse soon carried" with this session of the Legislature, and it is probable that some important measures will be overlooked. The matter of inducing immigration from the United States is one that should have the attention of the members without much delay. The more people that are here permanently the better will be the business of every store keeper on the islands.

A good farmer is worth something to the store keeper who sells honest goods at low prices, that's us. We are offering ribbons all widths at prices that actually make us ashamed to tell you what they are. The coats of our rivals turn green with envy when they hear of them. We have them in every conceivable shade.

Our stock of underwear has never been equalled, much less excelled in either quality or price. It is absolutely the best at what you pay for a second or third class article. It was only by chance that we secured the stock of a well known dealer in San Francisco, (overstocked was his excuse for disposing of it), and as we got them far below the market value we are enabled to give you the benefit of our good luck. They're going rapidly, these suits, and you must speak quick if you want them.

If you are thinking about getting a riding or bicycle suit you had better look into our ladies, cloth and serges. The quality is right and so is the price. All shades and desirable widths.

MORE COMPETITION

The O. R. & N. Steamers will Hereafter Call at this Port.

One of the results of the strong competition now existing between the different steamship lines for Oriental trade is a cut from three-quarters to a cent a pound on freight rates from the Orient. To even matters up with the other lines, the O. R. & N. Company, the latest in the field, will hereafter call at Shanghai and Amoy, and will there also cut freight rates. The Northern Pacific Company, however, is handling all the freight it can take and is chartering vessels to meet the increased demands. On the 23rd inst. the second of the O. R. & N. Company's steamer will be due. She left Yokohama on the 7th inst. with a full cargo. The Asloun—the vessel coming—has a carrying capacity of 4280 tons dead weight, while the Altmore, which left Hongkong on the 13th inst. and which is the third and last ship of the line, has a dead weight carrying capacity of about 3500 tons. The running schedule of the steamers has been changed. They will make Victoria their first port of call, but after leaving Portland will proceed direct to Honolulu and thence to Japan. The change is made so as to include Honolulu in the ports of call, and this time maintained by the vessels will be the same as that provided under the old schedule. They will call here before leaving, thus saving a considerable portion of the time lost in making the special run to Honolulu. F. C. Davidge, agent of the Company, said yesterday that there was a good deal of freight offering for Honolulu and he thought a profitable business might be worked up in spite of the San Francisco and Canadian-Australian lines.—Victoria ex.

Captain Stott Complimented.

From all accounts the last up trip of the Miowera was a more than usually pleasant one. A number of enjoyable concerts were held and a successful dance was given after leaving Honolulu. On the voyage Capt. Stott was presented with the following address, signed by the passengers:

"We, the passengers by the Miowera to Vancouver, desire before leaving the ship to express our sense of the comfort we have enjoyed, the uniform courtesy and kindness we have experienced at the hands of Commander Stott and his officers, and the attention we have received from the attendants of the ship during our passage across the Pacific. All the arrangements made for the convenience and enjoyment of the passengers we found to be most excellent, and we could wish no better holiday trip, no more comfortable means of traveling than we have had on the Miowera from the 20th of June to July 13, 1895."

We may be sure that the bicycle is a necessity and not a luxury when we are assured that fat persons use it to make them thin and thin ones to make them fat.

A bold and bad burglar has robbed a bicycle girl of the money in her bloomer pockets in New York. Which goes to show that if women will wear bloomers they are liable to have their pockets picked the same as anybody else. As it was before, nobody could find their pockets and they were safe.—Pasadena Star.
